### Committee on Expenditures in the War Department.

WASHINGTON, March [illegible] [illegible] clerk in his service and [illegible] preparation of the claims [illegible] the government or to any member of the [illegible] Pendleton said in fact Mrs. Marsh and Mr. Bowers traveled with him and family in Europe, [illegible] that he had [illegible] with any member of the committee [illegible] was infamously false.

[illegible] the Kentucky Central railroad was that [illegible] to Secretary Stanton but not to any other Secretary. He did [illegible] understand that Secretary Stanton's action concerning the claim was [illegible]

Question: [illegible] with Secretary Belknap to have the claim referred to [illegible] Answer: I do not know how it came to be [illegible]

Q. [illegible] was the claim originally [illegible] A. I could only tell from the papers [illegible] an original report from General Meigs. My impression is I went to see General Meigs when I was here and conversed with him on the subject. I having replied to his argument, Meigs said the claim ought not be paid, having once been [illegible] the War Department and [illegible] not think it ought to be reopened.

[illegible] Stevenson said the [illegible] Kentucky Central [illegible] for some time [illegible] and also general counsellor of the company. Pendleton was employed to take charge of the collection of the claim [illegible] for which he was to receive [illegible] per cent. [illegible] was present when the agreement was made [illegible] the account was settled [illegible] knowledge of the [illegible] settlement. [illegible] one of the managers of the road he endorsed the settlement as just and fair, and was glad to get the money. [illegible] had been burnt and [illegible] seizing the road and working it for the [illegible] The senator had received it as a good [illegible] He had heard that [illegible] Meigs decided adversely to the claim and was [illegible] and a little surprised when [illegible] had been hanging so long.

Gen. Boynton was [illegible] sworn. He [illegible] to him understood that he appeared [illegible] voluntarily and not by subpœna. The chairman [illegible] to the dispatch in the New York *Herald* of the 8th and 9th of March the foundation of which had been furnished to Mr. Nordhoff, correspondent [illegible] of the *Herald* [illegible] Boynton and [illegible] The witness said [illegible] had no personal knowledge of the truth of the [illegible] but held himself responsible for what [illegible] printed in the *Herald* so far as it came from [illegible] which he gave that [illegible] statement was [illegible] on witness's own responsibility. Witness having been asked by the chairman to give the name of his informant responded that he would like first to tell how he came to publish the information. The chairman wanted the name of his informant. [illegible] said he did not obtain the statement from the man who would verify it. Black said they were entitled to a categorical answer. After a short colloquy the witness was permitted to state how he obtained the first information from Brewster M. Wilson, who referred him to Mr. Shellabarger, also an ex-member of Congress and Wilson's law partner, and Shellabarger referred witness to Col. Grafton. The last named gave him the information referred to in the *Herald* dispatches on the condition that he would not use his name and Col. Grafton gave as his authority Gen. Keddoe of the U. S. army, with whom the chairman of the committee traveled and with whom the chairman conversed on the subject of this inquiry. Witness said he met Wilson in the Treasury Department a week ago Friday and Wilson remarked he had heard of the matter and that it ought to be looked up, and referred him to Mr. Shellabarger. Shellabarger said to witness that while sitting in the court of claims Col. Grafton said to him "there is a gentleman who knows all about the sum of $5,000 or $5,500 being paid to Mrs. Bowers, afterwards Mrs. Belknap, out of the Kentucky Central railroad case." The witness asked Shellabarger whether he would authorize him to go to Grafton and talk about it. Shellabarger responded, "certainly." Witness accordingly called on Grafton next morning. Grafton introduced him to Keddoe, who soon went out. Grafton said "the gentleman who just went out of the room knows about it." The amount of the statement was that General Keddoe was one of the party with Mr. and Mrs. Marsh [illegible] H. Pendleton, Mrs. Bowers, afterwards Mrs. Belknap and Mr. Clymer who made some parts of the tour of Europe together. The witness obtained the impression that they all traveled together at the same time. Mr. Clymer (interrupting) remarked he was not in Europe at that time. The witness learned from Grafton that when Mr. and Mrs. Marsh [illegible] Washington the night before March testi[illegible] there was a conference at Arlington House at which Mrs. Marsh, Mr. Belknap and several other persons were present, all of them being acquaint[illegible] and none of them knowing the facts which [illegible] Clymer committee were instructed to inquire into, and that at that meeting Mrs. Marsh, in talking of various transactions in which she had [illegible] alluded to the statements [illegible] in regard to the so-called Pendleton railroad claim [illegible] to the Kentucky Central railroad [illegible] Mrs. Belknap said [illegible] while it had been [illegible] an [illegible] she was ever brought before the committee. She would undoubtedly testify to the main facts [illegible] And Grafton further [illegible] that Keddoe [illegible] against Pendleton [illegible] similar to that of Marsh and [illegible] that if he had determined to bring Belknap down he could not justly decline to bring Pendleton down too, and that Clymer asserted he had not sufficient evidence to reach Pendleton [illegible] but Clymer was pressed with [illegible] that Mrs. Marsh would testify [illegible] and that [illegible] of the department would throw some light on the case. The only way was to summon Mrs. Marsh and she would tell about the interview. Witness and [illegible] a subpœna was obtained for Mrs. Marsh, but before it could be served she went to Canada. Witness took the responsibility of publishing the story in consequence of its importance, [illegible] it placed the committee in an awkward condition. We took the responsibility of writing it up and giving manifold copies to correspondents of the New York *Herald*, Boston *Herald* and [illegible] Boston [illegible] and [illegible] Tribune. After the story came back [illegible] Clymer made a personal explanation [illegible] He said [illegible] witness said [illegible] him the points could be sustained. Witness said he never had any communication with Keddoe personally. The chairman suggested whether in common fairness it would not have been better to ask the chairman whether he had taken the proper steps in the matter before publishing the charges against him. [illegible] statements that the facts [illegible] the case were [illegible] the result as [illegible] to Pendleton [illegible] He also asked witness if when he prepared his article, he knew the statements [illegible] facts.

[illegible] know the facts only by hearsay.

Blackburn [illegible] the witness [illegible] sworn.

Witness [illegible] other way and [illegible] extent than he had stated.

WASHINGTON, March 15.

[illegible] Grafton was examined to-day before the [illegible] expenditures in the war department [illegible] the chairman read to him that article [illegible] in the New York *Herald* of the 8th inst., containing certain information concerning the committee and [illegible] Pendleton. Grafton said he obtained the information from Gen. Boynton [illegible] information from Mr. Wilson [illegible] The witness [illegible] the conversation with [illegible] Mrs. Marsh, Pendleton and Clymer [illegible] acquainted with the main facts alluded to [illegible] witness related a conversation [illegible] Keddoe told him Clymer [illegible] Pendleton matter [illegible] derived from Keddoe the impression that there was an indisposition on the part of the committee [illegible] examine into the facts. Keddoe never stated that Clymer traveled in Europe with the parties [illegible] but he [illegible] met him with those parties [illegible] Clymer attended a meeting at the Arlington [illegible] with Mrs. Marsh and Mrs. Belknap.

Blackburn offered a resolution that [illegible] done [illegible] by this committee [illegible] each member present [illegible] in which such action is had unanimous [illegible] members. [illegible] adopted: Yeas—Clymer, Blackburn and [illegible] Nays—Bass and [illegible]

[illegible] treasurer [illegible] railroad [illegible] the claims of that company [illegible] far as he knew no portion of the settlement [illegible] money being used improperly by Pendleton [illegible] They regarded the claim as [illegible] There was nothing [illegible] was [illegible] of settlement.

### Correspondence Concerning Schenck.

WASHINGTON, March 15.—The committee on [illegible] the letter from Secretary Fish to Mr. Swann, chair[illegible] of 7th [illegible] requesting information on whether I have [illegible] Gen. Schenck and the [illegible] and further asking that all corres[illegible] with Her Britan[illegible] Majesty's government [illegible] communicated [illegible] I have to say that on the 5th of February [illegible] Schenck [illegible] from London in sub[illegible] that [illegible] the House of Representatives [illegible] what action it [illegible] in this connection with the Emma mine that he wanted the [illegible] and calumnious misrepresentation with which he had been pursued. The President [illegible] his [illegible] and was no longer [illegible] in the position and being granted [illegible] should [illegible] he would resign his commission [illegible] in London in any event for a time although the cost of [illegible] and litigation might be injurious to him personally to vindicate his good name and meet a [illegible] legal proceedings against him [illegible] of justice. On the 9th he inquired if he would be permitted to make public in London his telegram of the day before and I was informed that the President did not think it necessary to act upon the telegram and that such publication was not advisable. On the 11th a telegram was sent him [illegible] that the President retained full friendship for him, regretted the bitterness with which he was assailed and adhered to the opinion that his connection with the Emma Mine was an unfortunate indiscretion but without improper motive on his part and that the public [illegible] withdrawal from [illegible] criticisms, and also [illegible] that his telegram of the 8th threw upon the President the responsibility of accepting or declining to accept the tendered resignation and in the latter case of appearing to insist on his retention in the face of the public demand more or less strong, under which the President had remained quiet in full conviction that his conduct had been free of wrong purpose and in the absence of any expressed willingness on his part to resign. That now having voluntarily expressed his readiness to relieve the President from any embarrassment which his position might involve and with kind feelings towards him he felt that under the existing circumstances his resignation would relieve him from embarrassment and it could be made either by telegraph or by letter and take effect when his successor should enter upon the duties of the post. On the 11th of February Gen. Schenck telegraphed: "He failed to recognize the telegram of the 9th informing him the President did not think it necessary to act on his of the 8th with that received Saturday communicating his view of his office, but he promptly acceded to what was suggested and would send his resignation in writing by next mail." On the 21st of February Schenck telegraphed that having placed his resignation at the President's disposal pending the inquiry ordered by the House of Representatives he asked leave to repair to Washington to appear before the committee. On the 23d of February he was informed by telegraph that leave of absence with permission to return to the United States was given. That the inquiry of the House was to ascertain what action had been taken by the executive department of the government in relation to his connection with the company and prosecution of the Machado claim, that a reply had been sent, and the committee would probably report soon. On the [illegible] Gen. Schenck telegraphed he would go to the United States if permitted provided that the inquiry into his conduct proceeded; that in the meantime he awaited the committee's report and the President's action on his resignation, [illegible] on the 19th. On the 29th of February, as General Schenck had expressed a desire to return and appear before the committee, he was informed that the committee had reported the information furnished by the department which was recommitted and that the House had adopted a resolution authorizing the committee to inquire further into Schenck's connection with the mine and to send for persons and papers. On the 1st of March he telegraphed that being informed of the House resolution ordering further investigation with power to send for persons and papers he claimed the right to appear before the committee, and would sail on the 11th in the *Java*, and by a subsequent telegram of the same date (1st March) he said Lyon's statements concerning him, published in London that morning were a tissue of infamous falsehoods and asked to have Park Stewart and others summoned and protested against *ex parte* proceedings in his absence, and added that he would sail in the *Abyssinia* on the 4th. On the 2d of March General Schenck telegraphed that he had tendered his resignation when the action of the executive was questioned and that as his own conduct was now the subject of charges and investigation, he assumed the President's decision on his offer would be suspended while this proceeding was pending. On the 3d of March he was advised that the President had taken steps to fill his place immediately and on that account and for other reasons could not delay action on his resignation. On the 8th of March a dispatch was received from Gen. Schenck dated the 19th of February enclosing his letter of resignation addressed to the President dated 17th of February and on the 6th of March his resignation was accepted. There has been no correspondence whatever with Her Britannic Majesty's government or with or from any agent or representative of that government in reference to General Schenck, either orally or in writing any communication [illegible] you [illegible] the 11th of February.

### Investigation of the Alaska Company Nearly Concluded.

WASHINGTON, March 15.—The examination of witnesses by the committee charged with the investigation of the Alaska Commercial Company is nearly concluded. [illegible] P. Jurie, formerly paymaster of the U. S. army stationed at Sitka, testified to-day that he visited the seal island with General J. C. Davis in 1868, and, during a few hours which he spent on St. Paul's Island he made inquiries by means of an interpreter with a view of procuring information on which to base a bid for the lease of the island. He was acting in the interest of one Kincaid, sutler of the post of Sitka and a man named Shirpser. He complained that time enough had not been given on cross-examination. He admitted his bid had been received at the Treasury Department before the award and when asked whether the Alaska Commercial Co. had failed to comply with its contract he replied they had undoubtedly fulfilled their obligations. He did not think they would be foolish enough to kill the goose that laid the golden eggs for them.

Secretary Bristow testified that the company had in his opinion, complied with the contract and were legally entitled to the privileges. He said if he had discovered any failure on their part to fulfill their obligations he should have annulled the lease, full authority to do so being given him by law.

Mr. James, chief of the customs division of the Treasury Department testified that although he had nothing to do with awarding the lease yet all the business subsequently had been transacted through his office and he was assured that the company had faithfully complied with their duties to the government. Thus far the evidence before the committee discloses no wrongful act on the part of the company or any of its agents and the only [illegible] is the legal one which was decided by the officers of the government when the lease was awarded.

### Concentration of the Landwehr.

LONDON, March 14.—The *Times* Berlin special says a portion of the Austrian landwehr is to be concentrated in Croatia, Tyrol and vicinity.

### London Stock Exchange.

This morning the stock market opened quiet and dull. Three additional but unimportant failures have been announced in the House. The *Economist* says: "In the Stock Exchange there was not much fresh business, attention being largely occupied with the arrangement of accounts, preparatory for Wednesday's settlement. This settlement has been looked forward to with a good deal of misgiving although instances of actual default amongst members of the Stock Exchange were limited to two and those unimportant."

LATER.—Stocks are rather flat this evening. Confidence is not thoroughly established. One more failure, a small one, is announced this afternoon. Silver strong at 51⅝ [illegible] pence per ounce.

LONDON, March 15, 1 P. M.—One more small failure was posted on the stock exchange, making four to-day and 16 on this fortnightly settlement. The stock market closes firmer, with a better feeling than any time since Saturday.

Two additional failures have been posted on the stock exchange. Business is almost nominal, the settlement absorbing attention. Changes in prices of different securities and shares do not show there is any excitement, though they are mostly downwards. Still further failures are expected, but none of any great importance.

### Pay Day on the London Stock Exchange.

LONDON, March 15, noon.—To-day is pay day, the last and most critical of the fortnightly settlement. A feeling of uncertainty and inactivity prevails. Six failures have already been posted in the house. Five are trifling but one, that of William Upward, stock broker, is believed to be for a considerable amount. Further failures are considered certain. A number of failures are reported in the Glasgow and Liverpool Exchange, but it has not yet been made known whether they will have any serious effect here.

### The Silver Question.

The *Times* this morning, in its financial column, says bar silver was in strong demand yesterday, and in the absence of supplies was nominally quoted at 53½ to 54 pence per ounce. The more the circumstances under which the fall in silver has occurred are considered, the clearer does it become that it could hardly have been more unfavorable to the permanent recovery. Apart from the diminished demand for export to the East, the demonetization by Germany, temporary stoppage by several nations of their mints, and the increased production of mints, it seems to be evident that silver as standard value either in combination with gold or by itself has had its day in Europe. To attempt to force this country into using it again as a legal tender side by side with gold is as [illegible] possible [illegible] restore old [illegible] in place of [illegible] ways.

### Roumania Pays Tribute.

A Berlin special says Roumania has paid tribute due to the Sublime Porte but renewed the request for commutation. The Porte opposes.

### European Grain Market.

LONDON, March 14.—The Mark Lane *Express* weekly review of the grain trade says the character of weather during the past week has undergone no improvement in any part of the country, while at the end of the week it has been of a rather rough, stormy and unsettled. Vegetation under so much rain and cold wind has made very little progress, and the wheat plant which was everywhere reported to look well will shortly stand in need of drier days and warmer lead. Holders of good wheat evince little disposition to meet millers' views and this feeling somewhat contracted operations. In spite of the position of markets it cannot be denied that the present is a period of great depression as compared with expectations formed at the time of last harvest. The prices realized for produce in 1875 are very disappointing both to merchants and farmers and want of sure foundations whereon to base operations militates much against the probability of a marked improvement. The absence of frost as the season advances tends to keep the market quiet and large stocks still known to be in the granary deter speculators from operating in such a degree to influence the course of trade in spite of temptation to do so now that the range of prices is so moderate, having regard to the interior European and American crops. In short weather influences will soon be supreme in determining the future course of prices, and it would appear that even if the present dullness continues no great decline can be looked for, whilst with continued adverse weather probabilities lie in the direction of material improvement.

And it provides that such action shall be brought by the Attorney General who shall prosecute said action at the expense of the State for the benefit of the person aggrieved.

The law further provides against the consolidation of any railroad corporation within the State with any parallel or competing line and against the purchase or acquisition of the control of any such line. It also prohibits any officer or employe of any railroad from furnishing, or being pecuniarily interested in the furnishing of any supplies or material to such railroad and from engaging in the business of common carrier of freights or passengers over the lines owned, leased or operated by such railroad company.

It further provides for a schedule of maximum charges for freights and passengers. And finally after repealing all acts inconsistent with this law it fixes the compensation of the commissioner.

Such is the law. It has already in effect been copied by the California act spoken of, and it is likely that it will be adopted with possible variations in the other States of the Union. The attention of Congress has already been drawn to the question of regulating the tariff of charges on the trans continental roads and it is probable that a law will be passed for that purpose at some early day.

In Europe this subject is also being considered specially by the government of the German Empire which proposes to consolidate all the railroads of the different States of the empire in one system under the immediate control and management of the government. Some of the smaller States as Bavaria are bitterly opposed to this scheme but their opposition will no doubt prove ineffectual.

The object to be attained by the enactment of laws similar to this is a good one and much to be desired. If the plan proposed works well and we do not now see why it should not, it will prevent many of the evils connected with the present management of railroads, about which we every day hear such loud complaints. It will be impossible for a railroad company to use its power to injure any town or person or to hinder or impede the proper transportation of freight or passengers. It will render equally impossible the formation of rings of the directory of railroad companies such as that alleged to have existed in the Central Pacific Railroad Company, which according to the complaint recently filed in a California court by Mr. A. A. Cohen, defrauded the stockholders of that company to such an extent. It will finally have the effect to restrict the railroad companies to the transaction of their legitimate business of carrying freight and passengers.

### CALEB P. MARSH'S ANTECEDENTS

HIS CAREER IN CINCINNATI—THE INTIMACY BETWEEN HIS WIFE AND THE BOWERS [illegible] KNAP [illegible] HIS CONNECTION WITH [illegible] SCHEMES

[Special Dispatch to the New York Times.]

CINCINNATI March 3.—C. P. Marsh, the man who gave evidence before the House committee involving Secretary Belknap and family, was for many years a resident of this city. He was a member of the hardware manufacturing firm of Tyler Davidson & Co. and withdrew from the firm during the war with $200,000 cash. After withdrawing he with his family boarded some time at the Burnet House, then the most fashionable hotel of the city, and while there his wife became very intimate with Mrs Bowers, now Mrs Belknap, and their intimacy continued for many years. During the war Marsh's name was connected with some disreputable schemes, prominent among which was that of Quartermaster Crane, who was court martialed and dismissed from the service at Nashville on charges of corruption and fraud. In the examination of this case it was shown that Marsh had made large presents to Crane, something in the same manner as in the present instance. Soon after this Marsh with his family and accompanied by Mrs Bowers made a trip to Europe where the whole party spent some time in travelling together. So far as is known here he has been engaged in no active business since his withdrawal from the firm mentioned. Mrs Belknap is almost a Cincinnatian, having been raised in Harrodsburg Ky and having spent some time here. Her wedding took place Dec. 11 1873 at Harrodsburg, which was the home of her father, Dr John A Tomlinson, who died about twelve years ago. She had previously become the wife of Mr Bowers who was connected with the hardware house of J. G. Leonard in this city. Mr and Mrs Bowers lived at the Burnet House during their stay in Cincinnati and Mrs Bowers by her accomplishments and engaging manners became a valued member of society. Her husband's health failing she went with him to Cuba where he died. It is said that at his death she obtained $20,000 on an insurance policy on his life. She had also other property, all of which she placed under the care of Hon George H Pendleton who managed it so successfully that there was turned over to her the sum of $97,000 which she it is supposed continued to hold in her own right. It was supposed that a portion at least of this sum was invested for her by Marsh and the theory is advanced that the payments by Marsh were supposed by Belknap to be the income from this investment. It is also stated that after their return from Europe and the marriage of Mrs Bowers with Secretary Belknap a bitter quarrel arose between Mrs Marsh and Mrs Belknap and it is supposed these developments are the result of this fact.

The firm of which Marsh was a member furnished large quantities of axes and other hardware to government through Crane the quartermaster alluded to and it was claimed that these contracts were procured by means of the bribes mentioned.

We find that a very large proportion of the crimes which we have been called upon to investigate are either directly or remotely connected with some of the various houses of prostitution in the city of Portland. These institutions exist only in the city, but the county bears the burden of the expenses occasioned by them. It would certainly be an economical measure as well as one greatly and favorably affecting the public morals if the city would, by law, strictly enforce and regulate the condition under which, as well as the limits within which they shall be kept, if they are allowed to exist at all.

On motion the Council adjourned.

## AMUSEMENTS.

VIVIAN KOHLER COMBINATION.—For the first time, the members of this company will appear this evening at New Market theater. A recent number of the *Colonist* says of their first performance at Victoria: "Of Vivian we know not what to say sufficiently commendatory of his entertaining powers, the rounds of applause he won last night perhaps convey to him the most convincing proof and pleasing assurance that he has lost none of his former popularity with Victorians. Mr. R. Kohler is a musician of extraordinary talent, and the number of instruments on which he plays seems to be unlimited; on the cornet, French flageolet and concertina, his efforts were really marvelous, and by a strange combination of side drum, cymbals, bass drum and other musical pieces Mr. Kohler presents in himself a powerful orchestra. Mrs. M. R. Blake is possessed of a very pleasing contralto voice, which she controlled with excellent effect in several ballads. Mr. W. C. Campbell has visited this city before, and those who then heard him formed such a favorable opinion of his *basso profundo* voice that they could not allow the opportunity of hearing him last night to slip by. He rendered 'The Miner' and 'Rose Marie' very successfully, and was accorded loud applause. Prof. Wand presided throughout at the piano, playing several selections with good taste and brilliancy." Reserved seats can be obtained at Pfunder's drug store.

To-morrow evening Mr. J. C. Ferguson, the Scotch lecturer, humorist, singer and bagpipist, will give a second entertainment at Masonic Hall. The first entertainment given was largely attended and afforded much pleasure and amusement to the public. Such opportunities do not occur often to hear Scotch poetry, humor and music rendered in its native purity, rich with the broad brogue and accent of the Highlands.

## BUSINESS NOTICES.

Attention is called to the new advertisement of those enterprising merchants Messrs. Clarke & Henderson, whose advertisement appears in another column. These gentlemen are now opening a very large and new stock of *Spring Goods*, all in the best and latest styles. Special attention is called to their splendid assortment of Summer Silks. COMMUNICATIONS.

A communication from Senator Mitchell, acknowledging the receipt of the telegram giving the action of the board with reference to asking for a Congressional appropriation to construct a telegraph line from Portland to Fort Canby, was read and laid on the table.

The following communication was read and placed on file:

OFFICE 2D ASS'T POSTMASTER GEN'L,
Washington, D. C., Feb. 10, 1876.

SIR: In reply to your letter of the 10th ultimo, enclosing copy of resolution of Board of Trade of Portland, soliciting the Post Office Department to take such steps as it may consider necessary to secure to your city a regular daily overland mail from the East and California, &c., I have the honor to inform you that the matter in question has been referred to Superintendent Anderman at San Francisco for such action as may be necessary to give greater facilities by existing service.

The department cannot, by reason of expense, establish another route, and it is reliably informed that it is a physical impossibility to carry newspaper mails over land route at this season of the year, the roads being impassable. I am respectfully,

JAS. N. TYNER,
Second Ass't P. M. Gen.

WILLIAM REID, Esq.,
Sec. Board Trade, Portland, Ogn.

The following communication was received, read and laid on the table:

OFFICE OF LIGHTHOUSE INSPECTOR, THIRTEENTH DISTRICT,
ASTORIA, Oregon, March 7, 1876.

WILLIAM REID, Esq., Secretary to the Board of Trade, Portland, Oregon—*Sir*: Enclosed you will please find a copy of a letter from the Lighthouse Board, dated at Washington February 18, 1876, addressed to me in relation to the establishment of signal stations at Cape Hancock and Point Adams light stations.

I have the honor to inform the Board of Trade that I shall be ready at any time to carry out the instructions contained in this communication.

Very respectfully, your obedient servant,
LOUIS KEMPFF,
Lt. Com. U. S. N., L. H. Inspector 13th District.

TREASURY DEPARTMENT,
OFFICE OF THE LIGHTHOUSE BOARD,
WASHINGTON, Feb. 18, 1876.

SIR: The Board of Trade of Portland, Oregon, has asked permission to employ the light keepers at Cape Disappointment and Point Adams light stations to communicate with vessels off the bar of the Columbia river by the international code of signals.

It has been determined to grant the permission asked, on condition that the Board of Trade furnishes the necessary signals, signal books, masts, halliards, etc., that nothing be required of the keepers detrimental to the interests of the lighthouse service, and that all arrangements made with the keepers be made through the inspector of the district.

You are requested to communicate the views of the Lighthouse Board to the Board of Trade, and to supervise whatever steps may be taken under this permission, making the keepers thoroughly understand that they must do their whole duty to the lighthouse establishment precisely the same as if they did not undertake this signal duty.

Enclosed herewith are transmitted for your further information, copies of two letters bearing on this subject, namely: First, Copy of a letter dated January 25th, from the Board of Trade of Portland, Oregon, to Major Wilson, light house engineer, asking the permission above specified. Second, Copy of a letter dated January 27th, 1876, from the engineer of the 13th lighthouse district, forwarding with his approval the letter of the Board of Trade.

Care should be taken that signal masts, if erected, are not so placed as to interfere with the light.

Very respectfully, J. G. WALKER,
Naval Secretary.

To Lieut. Com. L. Kempff, Inspector 13th Light-house district, Astoria, Oregon.

I hereby certify that the foregoing is a true copy.
LOUIS KEMPFF,
Lt. Com. U. S. N., L't house Ins. 13th dis.

The following letter from Hon. S. F. Chadwick, Secretary of State, was read and laid on the table:

STATE OF OREGON, SECRETARY'S OFFICE,
SALEM, March 13, 1876.

WILLIAM REID, Esq., Secretary of Board of Trade, Portland—*Dear Sir*: At the suggestion of the State Board of Immigration, the School Land Commissioners have ordered a large map of Oregon showing the resources of the State, and which will be sent temporarily to the Centennial for exhibition under the care of Mr. Dufur.

Seeing that your Board takes a great interest in the development of Oregon, permit me to make a suggestion that the Board of Trade make a small appropriation to have this map framed with specimens of the various woods grown here. Have it well and neatly done. The map would then be examined with double interest by persons visiting the Centennial, and it would give us an opportunity of advertising to the world our various timbers as well as other resources.

Very respectfully yours,
S. F. CHADWICK,
Secretary of State.

A communication was read from Hon. A. J. Dufur, Centennial Commissioner, asking for an appropriation from the Board which was necessary to be expended in defraying the expenses of forwarding the articles to be placed on exhibition at Philadelphia.

After considerable discussion Mr. Farrell moved that further consideration of the subject be postponed and that the Secretary be instructed to inform Mr. Dufur that under the by-laws of the Board the members were prohibited from making such an appropriation as was asked for by the writer, and that no funds were in the treasury.

REPORTS.

The following report was read, received and on motion the committee discharged:

PORTLAND, OREGON, March 18..

## THE WRECKED SCHOONER

NEWPORT, Benton Co., March 10.

TO THE EDITOR OF THE OREGONIAN:

I arrived here last evening and learn that a wreck has drifted ashore about twenty miles north of this place, and that the body of one man was found and buried by the Indians. Thinking you would like to get the facts as far as they have been gathered, I will state them. Unfortunately, however, the most important fact (the vessel's name) has not been ascertained. But there are some facts which are known, and which I propose to give to the public for the benefit of whom it may concern.

It seems that the wreck was found by the Indians on or about the 27th of February, lying among the rocks north of Cape Foulweather and about seven miles south of the Siletz river. She was bottom up and appeared to be a schooner of about ninety feet keel. One body was found of a large man with sandy beard and a circle of India ink on one arm, no clothing on the body. The Indians on finding the body went immediately to the Siletz Agency, and reported the facts to the agent, who instead of going at once to the wreck or sending some employe, allowed the Indians to return and bury the body as they thought best, and so it lay on the beach with the birds picking at it until Tuesday, March 7th, when the Indians finally buried it.

The supposition is that all hands belonging to this vessel are lost, and yet as no boat has been found, it is just barely possible that some of the crew left with the boat before she got into the breakers. This hope is small, however, inasmuch as one body came ashore. Another effort will be made to find out her name. If successful, I will send it to you.

Yours, respectfully,
J. J. WINANT.

## PLUMMER FRUIT DRYER.

AS A PROOF OF WHAT I HAVE HERETOFORE stated to the people of Oregon, I give below a letter from the Plummer Fruit Drying Co. of East Portland. After the close of business of 1875, fully endorsing it after using it one entire season, and as a proof to substantiate what they say, they now contemplate putting up another Dryer of the same capacity of the one they now have, which will increase their capacity to five hundred bushels of apples per day. Having now located here in Portland for the purpose of supplying the demand for Fruit Dryers in Oregon and Washington Territory, I can supply these dryers at a cost of from $1,000 to $5,000 according to capacity. Warranted to dry from 4 to 20 bushels of apples per hour at a small cost for labor and fuel. These machines being so cheap and simple in construction, they cannot fail to supersede all other known machines. I would also say to the fruit growers, that I have invented a Machine (and am now waiting for a patent) that will cut and spread the fruit on the trays with a very small amount of labor. I also have invented a Peach Parer that is on an entirely new principle, paring soft as well as hard, does its work well, with great speed, and slices and pits the fruit ready for the Dryer in the best possible manner, and at a great saving in quantity of fruit.

Having become somewhat acquainted with the wants of the people, I find that a cheap DRYER is what is wanted, and one that will do good work and a large amount of it. I have so modified my Dryer as to meet that demand, and can now guarantee my CHEAP DRYER to do as good work as any, and as large an amount of it, and the price is within the reach of all.

FRUIT DRYER TESTIMONIALS.

EAST PORTLAND, Jan. 4th, 1876.

MR. W. S. PLUMMER—*Dear Sir*: As this is a time when all are much interested in Fruit Drying, we think that in justice to you and for the information of the public it is but right and proper that we should give all the information that we can. Now after having operated your Dryer during this season we feel warranted in saying that for the amount of money invested we still believe as we did from the start that *your* Dryer is the best Dryer yet introduced into this country. The capacity of the Dryer we find to be about 8 (eight) bushels per hour. The Dried fruit we claim to be as good as any, though perhaps not as much bleached as the Alden Fruit, and we are satisfied that we can produce Dried Fruit at less expense than the Alden. The stockholders of our Company manifested their confidence in the Plummer Dryer at our meeting last Saturday, by a unanimous vote to increase the capital stock $12,000 (twelve thousand dollars) for the purpose of adding one more Dryer to the ... and making other improvements for ... season. We will further say that we believe that by an improvement made by the patentee in the ... and Fan that there will be an increase of capacity and a saving of fuel.

H. HANSON, President.
J. S. NEWELL, Secretary and Superintendent.

EAST PORTLAND, Dec. 18, 1875.

MR. PLUMMER—*Dear Sir*: I have been watching both the Alden and your Fruit Dryer the past season so as to determine which was the best Machine for drying Prunes. I visited the Alden Dryer at Oregon City and examined the Prunes dried on that Machine, and I have also examined several lots dried on your Machine at East Portland, and my opinion is that your Dryer is far the best Machine for drying Prunes. My reasons are these: Your Machine dries them without bursting or cracking, while I noticed that a great deal of the fruit dried on the Alden Machine was bursted open, and after a Prune is bursted in drying it is worthless for market as a Prune; therefore I can recommend your Machine for drying Prunes or any thing else. Yours truly,

H. W. PRETTYMAN,
Proprietor of Railroad Nursery.

PORTLAND, Jan. 10, 1876.

MR. W. S. PLUMMER—*Dear Sir*: The Dryer purchased by us from you for the purpose of drying our fruit has now been in operation two months and gives good work. All those that have tried the product pronounce it the very best quality.
Yours truly,
STEEL & CO.

### Robinson vs Central Pacific R. R. Co

SAN FRANCISCO March 15—The suit brought by Cohn & Lake, attorneys for Robinson against the Central Pacific and Contract and Finance Company, excites much comment. The opinion is freely expressed that it will never be brought to trial, though the attorneys for the complainant assert their determination to push it to a legal issue. It is believed by many that the suit is brought at the instigation of Colton in retaliation for the complaint recently filed against him by the company and that Robinson is merely a convenient dummy in the matter.

### Mexican Raid Apprehended

SAN DIEGO, March 15.—A dispatch from Campo in this county says numbers of Sonorians are again collecting along the border. Several have been hanging around this station of late, their suspicious actions causing some alarm. It is the general belief that only a favorable opportunity is awaited for the bandits below the line to resume operations. Some of these Mexicans recently from Sonora report that Cruz Lopez has joined Serna's revolutionary forces in Sonora, also that Chavez was not killed, but is now alive in that State. Over one hundred strange Mexicans have passed here within the past three days, going to Lower California.

The weather is warm and delightful; everything growing finely.

We take from the Honolulu *Gazette* of Feb 5 the following:

There is quite a speculative movement on foot in sugars [illegible] large transactions having taken place during the week, part of which is for [illegible] Portland and Victoria and part held there in anticipation of the passage of the treaty. Prices [illegible] 6½ to 7 [illegible] according to grade and are reported to be all cash transactions. This we trust is but the carrying out of the policy [illegible] by this journal long since and inaugurated last year by a party here of making cash purchases at home of planters' products instead of making consignments abroad at plantation risk.

The schooner Hera sailed on Saturday last for San Francisco taking a cargo of domestic produce valued at $[illegible]. The Mattie Macleay sailed to-day for Portland with a cargo of coffee, sugar, pulu and rice, valued at $1,051. Schooner Favorite is loading for Victoria promising to get off about the 28th. The bark D C Murray for San Francisco is awaiting the arrival of produce which is now coming forward freely and will probably get off on Tuesday next.

A telegram from New York of the 5th inst states that ten car loads of white and yellow sugars left there on the previous day for this coast. Crushed sugar was quoted at 10¼c ₱ lb and there had been an advance of ⅛c on yellow. In consequence of the large shipments of Eastern sugars to the coast says a San Francisco paper dealers and consumers may look for a further reduction in prices in the near future. A commercial journal of San Francisco which recently put forth some startling figures relative to the probable imports of sugar within a certain brief time stated in the same connection that the California refinery had contracted for 20,000,000 lbs Hawaiian, to be delivered within four months. This latter statement, though exaggerated, was not very wide of the mark in one respect. A contract has so we are well informed been entered into for the greater part of the incoming crop but the deliveries and prices are subject to the final action taken upon the pending reciprocity treaty. Though there is an agreement to take the sugar there can be no prices determined upon until something definite shall have been made known with regard to the treaty as determining whether or not the article is to be admitted free of duty.

The New Orleans *Price Current* makes the following statement of the Louisiana sugar and rice product of 1875 subject to slight changes upon a further revision: Sugar hhds [illegible] lbs [illegible] molasses bbls 21 319 rice bbls cleaned [illegible]

### The Produce Market.

The wheat market has changed but little since our last review. The vessels at hand to load are having good dispatch and but four are now on the berth, two here and two at Astoria. Receipts by boat and rail are above the average for the season and there will be no inconsiderable quantity on hand here when these vessels are loaded.

There are no changes in the flour trade, the shipments to San Francisco shows a slight falling off but the demand from northern ports is well sustained. Oats, hay and mill feed as quoted are in fair request. Provisions are active and dealers are taking all offering at current rates. Side bacon and lard in kegs are wanted and scarce, sellers are favored. Potatoes of good shipping quality are also in good demand at [illegible] Apples are rather weaker as the San Francisco market is too liberally supplied and many varieties are now becoming a little damaged by age. Yellow Newtown and Red Cheek Pippins are the favorite varieties, the next best are the Wine Sap and Red Romanite. Dried fruit is still advancing and apples are firm at 8@8[illegible] ₱ lb well packed. Roll butter is inquired for at our highest quotations and [illegible] from California are quite large.

### Shipping Intelligence.

The steamship Oriflamme for San Francisco will sail at 5 P M to-morrow.

The steamship Gussie Telfair for Puget Sound and ports postponed her time of sailing till [illegible] P M to-morrow.

The Hawaiian barque Mattie Macleay from Honolulu arrived in port last night with a fair cargo of Island products which she will discharge at once.

## POND'S EXTRACT

"Hear, for I will speak of excellent things"

POND'S EXTRACT—The great Vegetable Pain Destroyer. Has been in use over thirty years, and for cleanliness and prompt curative virtues can not be excelled.

CHILDREN. No family can afford to be without Pond's Extract. Accidents, Bruises, Contusions, Cuts, Sprains, are relieved almost instantly by external application. Promptly relieves pains of Burns, Scalds, Excoriations, Chafings, Old Sores, Boils, Felons, Corns, etc. Arrests inflammation, reduces swellings, stops bleeding, removes discoloration and heals rapidly.

FEMALE WEAKNESSES. It always relieves pain in the back and loins, fullness and pressing pain in the head, nausea, vertigo.

IN LEUCORRHŒA it has no equal. All kinds of ulcerations to which ladies are subject are promptly cured. Fuller details in book accompanying each bottle.

PILES—blind or bleeding—meet prompt relief and ready cure. No case, however chronic or obstinate, can long resist its regular use.

VARICOSE VEINS. It is the only sure cure.

KIDNEY DISEASES. It has no equal for permanent cure.

BLEEDING from any cause. For this it is a specific. It has saved hundreds of lives when all other remedies failed to arrest bleeding from nose, stomach, lungs, and elsewhere.

TOOTHACHE, Earache, Neuralgia and Rheumatism are all alike relieved, and often permanently cured.

PHYSICIANS of all schools who are acquainted with Pond's Extract of Witch Hazel recommend it in their practice. We have letters of commendation from hundreds of Physicians, many of whom order it for use in their own practice. In addition to the foregoing, they order its use for Swellings of all kinds, Quinsy, Sore Throat, Inflamed Tonsils, simple and chronic Diarrhœa, Catarrh (for which it is a specific), Chilblains, Frosted Feet, Stings of Insects, Musquitoes, etc. Chapped Hands, Face, and indeed all manner of skin diseases.

TOILET USE. Removes Soreness, Roughness and Smarting; heals Cuts, Eruptions and Pimples. It revives, invigorates and refreshes, while wonderfully improving the Complexion.

TO FARMERS—Pond's Extract. No Stock Breeder, no Livery Man can afford to be without it. It is used by all the Leading Livery Stables, Street Railroads and first Horsemen in New York City. It has no equal for Sprains, Harness or Saddle Chafings, Stiffness, Scratches, Swellings, Cuts, Lacerations, Bleedings, Pneumonia, Colic, Diarrhœa, Chills, Colds, &c. Its range of action is wide and the relief it affords is so prompt that it is invaluable in every Farm-yard as well as in every Farm-house. Let it be tried once and you will never be without it.

CAUTION! Pond's Extract has been imitated. The genuine article has the words Pond's Extract blown in each bottle. It is prepared by the only persons living who ever knew how to prepare it properly. Refuse all other preparations of Witch Hazel. This is the only article used by Physicians and in the hospitals of this country and Europe.

HISTORY and Uses of Pond's Extract in pamphlet form sent free on application to

POND'S EXTRACT COMPANY, 98 Maiden Lane, New York.

[illegible] said he did not, as nothing of that kind o[illegible] The witness however met with Clymer [illegible] July 4, 1871. They traveled together [illegible] many and parted at Berlin in July. The w[illegible] in answer to a question replied that as far [illegible] recollected he related to Col Grafton, Ge[illegible] informant that it was a matter whic[illegible] to be thoroughly investigated. Clymer sa[illegible] had no data to go into an investigation. W[illegible] remembered he said to Clymer he held [illegible] data against Pendleton as he had agai[illegible] when he commenced the investigation [illegible] The testimony of the witness was th[illegible] response to a question from Clymer, who said [illegible] he would go to the War Department [illegible] concerning Pendleton, the witness to[illegible] he had better go to the Treasury Departme[illegible] Clymer—Did I show an unwillingness to exami[illegible] Pendleton's case?
